Ahmedabad
University

Course Name: Machine Learning

Project Report: 6

Group No: 7

Submitted to faculty: <u>Prof. Mehul Raval</u>

Date of Submission: 12 April, 2025

Student Details

Roll No.	Name of the Student	Name of the Program
AU2240165	Mitul Ranpariya	B.Tech in CSE
AU2240166	Dhruv Patel	B.Tech in CSE
AU2240172	Parth Mevada	B.Tech in CSE
AU2240193	Pratik Malviya	B.Tech in CSE
AU2240195	Sameer Gediya	B.Tech in CSE

⇒ **Current Week Progress:**

→ In this week, we have completed and solved all errors. Now, we are training the model and also some of the models have trained and other models are still remaining. In some time, all models will be trained. After that, we will run our final code and there will be shown the output of biometric identification of mugger crocodile. In the programming part, we have developed models of SVM, random forest, KNN and XGBoost.

→ Till now, we have faced some issues in most of the programming part. But, we have completed most of our work in the programming part. Firstly, we have done some trials on some photos. At that point, we had found some mistakes, after we solved it and now we are working on the whole dataset.

⇒ **Next Tasks:**

→ In the next day, we will complete our whole project and we will develop the biometric identification of the whole project. In the next day, we will start working on presentation slides and the report.
